

BUSINESS REQUIREMENT DOCUMENT (BRD)

Project Name

The Zaika Digital Ordering Ecosystem

Version 1.0

Prepared For:
The Zaika

Prepared By:
Product & Business Strategy Team

Date:
May 2026

1. Executive Summary

The Zaika currently operates as a cloud kitchen primarily acquiring customers through third-party aggregators such as Zomato and Swiggy.

While these platforms provide visibility and customer acquisition, they create several challenges:

- High commission fees
- No ownership of customer data
- Limited customer retention mechanisms
- Reduced profit margins
- Dependence on third-party algorithms

The objective of this project is to establish a direct-to-customer digital platform that enables:

- Direct ordering
- Customer retention
- Loyalty programs
- Referral systems
- Data ownership
- Brand building

The platform should eventually become the primary ordering channel for The Zaika.

2. Business Goals

Primary Goals

Goal 1

Increase Direct Orders

Current:

0-5%

Target:

30% within 6 months

50% within 12 months

Goal 2

Reduce Aggregator Dependency

Current:

95%+

Target:

<50% within 12 months

Goal 3

Increase Customer Retention

Current:

Unknown

Target:

Repeat rate >35%

Goal 4

Increase Average Order Value

Current:

Estimated ₹250–350

Target:

₹450+

Goal 5

Build Customer Database

Collect:

- Name
 - Phone
 - Email
 - Address
 - Order history
 - Preferences
-

3. Business Challenges

Current Challenges

Aggregator Commission

15-35% revenue loss per order

No Customer Ownership

Customer data remains with aggregators.

Price Competition

Users compare directly with competitors.

No Loyalty Program

Customers have no reason to return.

Weak Brand Recall

Customers remember:

"Restaurant from Zomato"

Instead of:

"The Zaika"

4. Business Opportunity

Direct Ordering

Every order shifted from aggregator to direct channel improves margins.

Loyalty

Customer acquisition cost decreases significantly when customers reorder directly.

Referrals

Satisfied customers become acquisition channels.

Customer Data

Allows:

- WhatsApp marketing
 - Email marketing
 - Personalized offers
-

5. Product Vision

Build a premium digital-first food platform focused on:

- Akni
- Biryani
- Mughlai cuisine

for Ahmedabad customers.

The experience should feel closer to:

- Sweetgreen
- CAVA
- Behrouz

than a traditional restaurant website.

6. Target Audience

Segment 1

Working Professionals

Age:

22-40

Needs:

- Fast delivery
 - Consistent quality
-

Segment 2

Families

Age:

30-55

Needs:

- Group meals
 - Weekend ordering
-

Segment 3

Students

Age:

18-25

Needs:

- Affordable meals
 - Offers
-

Segment 4

Food Enthusiasts

Interested in:

- Biryani
 - Akni
 - Mughlai cuisine
-

7. User Personas

Persona A

Corporate Professional

Orders:

2-4 times weekly

Pain Points:

- Long delivery time
- Inconsistent quality

Goals:

- Quick reordering
-

Persona B

Family Buyer

Orders:

Weekend meals

Pain Points:

- Large order complexity

Goals:

- Convenient family meals
-

Persona C

Loyal Customer

Orders:

Weekly

Goals:

- Rewards
 - Discounts
 - Faster checkout
-

8. Project Scope

Phase 1

Marketing Website

Features:

- Homepage
 - Menu
 - About
 - Contact
 - Offers
-

Phase 2

Direct Ordering

Features:

- Cart
 - Checkout
 - Payments
 - Order tracking
-

Phase 3

Retention Platform

Features:

- Loyalty
 - Referral
 - Wallet
 - Coupons
-

Phase 4

Growth Platform

Features:

- CRM
 - Analytics
 - Marketing automation
-

9. Core Business Features

Direct Ordering

Customer can:

- Browse menu
- Add items
- Checkout
- Pay

Business Benefit:

Higher margins

Points earned per order.

Example:

₹100 = 10 points

Benefits:

Increased repeat purchases

Referral Program

User invites friend.

Reward:

₹100 credit

Business Benefit:

Lower acquisition cost

Wallet

Store credits.

Benefits:

Encourages future purchases

Saved Addresses

Business Benefit:

Faster checkout

Quick Reorder

Repeat previous order.

Business Benefit:

Higher retention

10. Success Metrics

Revenue Metrics

Monthly Revenue

Direct Order Revenue

Average Order Value

Customer Metrics

Customer Acquisition Cost

Customer Lifetime Value

Repeat Purchase Rate

Engagement Metrics

Referral Participation

Loyalty Participation

Email Open Rate

WhatsApp CTR

11. Key Performance Indicators

KPI	Target
Direct Orders	30%
Repeat Customers	35%
AOV	₹450+
Referral Usage	15%
Loyalty Participation	50%
Checkout Conversion	8%+

12. Business Rules

Delivery Radius

Initial:

5-8 km

Minimum Order

₹149

Free Delivery

₹399+

Loyalty

1 Point = ₹1

Referral

First order only.

Coupon Usage

Single coupon per order.

13. Risk Analysis

Risk 1

Customers continue ordering through aggregators.

Mitigation:

Exclusive website offers.

Risk 2

Low direct traffic.

Mitigation:

QR codes

Packaging inserts

Instagram campaigns

WhatsApp campaigns

Risk 3

Operational overload.

Mitigation:

Order management dashboard.

14. Future Expansion

Restaurant Launch

Table reservations

Dine-in ordering

Event bookings

Mobile App

Android

iOS

Franchise System

Centralized management

Multi-location support

15. Final Business Objective

The website should not be treated as a marketing asset.

It should be treated as a profit-generation platform that:

- Acquires customers
- Converts customers
- Retains customers
- Builds brand loyalty
- Owns customer relationships
- Reduces dependence on Zomato and Swiggy

Ultimate North Star

Within 24 months, The Zaika should be recognized not merely as a cloud kitchen, but as Ahmedabad's leading Akni & Biryani brand with a strong direct-ordering customer base and a scalable digital ecosystem.
