

The Zaika — Website Content Strategy & Copywriting Guide

Version 1.0

Conversion-Focused Content Architecture

Content Philosophy

Most restaurant websites make a mistake:

They talk about themselves.

Customers care about:

1. What can I eat?
2. Is it good?
3. How fast can I get it?
4. Why should I order from you?
5. Can I trust you?

Every piece of content should answer one of those questions.

Brand Voice

Personality

The Zaika should sound:

- Confident
- Warm
- Premium
- Authentic
- Modern

Not:

- ✗ Fancy luxury hotel
- ✗ Street vendor
- ✗ Corporate company

Think:

Modern food brand with authentic roots.
